

**STAAR Grades 3–8**  
**2017 Test Administrations**

**Reporting Student  
Data File Format**

## Overview

All STAAR English and STAAR Spanish assessment data is combined into one record for each tested student. Student assessment data is merged by tested grade level for students who test across multiple grades. Students testing across different grade levels will have more than one record in the file.

Following is a list of the most significant changes being implemented in 2017.

1. **MILITARY-CONNECTED-STUDENT-CODE:** The Military-Connected-Student-Code has been added at position 164.
2. **Student Performance Standards and Performance Level Results:** Student performance level results are reported as Approaches Grade Level, Meets Grade Level and Masters Grade Level. See positions 423–425 (reading), 777–779 (mathematics), 1123–1125 (writing), 1525–1527 (social studies) and 1925–1927 (science). Previous Level II passing standards have been removed.
3. **STAAR L and STAAR A:** STAAR L and STAAR A test versions have been discontinued effective with the 2017 spring administrations. Enhancements to online accommodations for STAAR will allow students to take the same online test form and eliminate the need for separate STAAR A and STAAR L test forms going forward.
4. **Test Accommodation Information:** Beginning with the March 2017 administration of STAAR, students who are eligible for testing accommodations may receive those accommodations through an enhanced online version of STAAR. Three types of embedded accommodations (text-to-speech, language and vocabulary supports, and content supports) can be assigned on an individual student basis. See positions 259–261 (reading), 279–281 (mathematics), 297–299 (writing), 319–321 (social studies) and 339–341 (science). In addition, Oral Administration, Linguistic Accommodations and Standardized Oral Administration have been discontinued.
5. **Percentile:** Percentiles have been added for all content areas indicating the student scored the same or better than this percentage of all Texas students who took this test in the prior year. See positions 612–614 (reading), 969–971 (mathematics), 1311–1313 (writing), 1757–1759 (social studies) and 2163–2165 (science).
6. **Current Year History Information:** Current-year history performance level results have been updated and percentiles have been added (reading primary administration 2277–2279; reading May retest 2307–2309; mathematics primary administration 2332–2334; mathematics May retest 2362–2364; social studies 2391–2393; science 2421–2423). Reading and mathematics Reporting Category Scores and Raw Scores have been added for the primary administration (2431–2438 and 2451–2460) and the May retest (2441–2448 and 2463–2472).
7. **Previous Year History Information:** Previous year history information for grades 5 and 8 June retest (reading and mathematics) has been removed. Previous year history information for grades 5 and 8 May mathematics retest has been added. See positions 2681–2704.
8. **Lexile Measure:** The Lexile Measure has been added for STAAR grades 6–8 reading.
9. **Lexile Measure History:** A complete Lexile Measure history, by grade, has been provided in positions 2901–2930.

**NOTE:** The data will be provided in a fixed-length text file format with the layout defined below. The file extension will be .txt.

### WRITING SUBJECT INFORMATION

The following tables show the number of items and points possible for each reporting category and grade tested on the STAAR writing tests.

#### STAAR

Writing	Grade	Reporting Category			
		1	2	3	Total
Multiple-Choice Items	4	0	8	16	24
Written Composition Items		1	0	0	1
Total Items		1	8	16	25
Multiple-Choice Items	7	0	13	17	30
Written Composition Items		1	0	0	1

Multiple-Choice Points Possible	7	0	13	17	30
Written Composition Points Possible		16*	0	0	16
Total Raw Score Points Possible		16	13	17	46

\*STAAR written composition scores at grade 4 are not weighted. The maximum score possible is a score of 8. At grade 7, the written composition scores are weighted by two. A score of 8 on the item would yield a maximum score of  $8 \times 2 = 16$ .

1101-1106

6

#### **WRITING REPORTING CATEGORY SCORES**

Number of points achieved by reporting category. The reporting category 1 score represents the points achieved for the essay scores after weighting has been applied.

1107-1108

2

#### **WRITING RAW SCORE**

The writing raw score is calculated by adding the number of multiple-choice items answered correctly to the weighted (where applicable) written composition scores.

At grade 4, if a student has 17 of the 24 multiple-choice items correct and receives a combined score of 5 on the written composition, the student's total writing raw score will be 22 out of 32 possible raw score points ( $17 + 5$ ).

At grade 7, if a student has 22 of the 30 multiple-choice items correct and receives a combined score of 5 on the written composition, the student's total writing raw score will be 32 out of 46 possible raw score points  $\{22 + (5 * 2)\}$ .
